Experience

Software Developer, Realm Labs AI – New York, United States - Remote   2022 - 2023
- Built the product from the ground up, covering authentication, a drag-and-drop comic book creation tool, and AI-powered character/scene generation.
- Integrated merchandise sales, payments, and an AI chat interface to interact with comic characters.
- Stack: Svelte/Kit, TypeScript/JavaScript, MongoDB/Prisma, Firebase/GCP, Tailwind/DaisyUI, Stripe Connect, Auth.js, Langchain/GPT-3.5.

Software Developer, Haast 🔗 – Canberra, Australia - Remote   2023 - Present
- Led the visual overhaul of the web app, improving the overall design and user experience.
- Developed a PDF comparison tool and a workflow status board featuring drag-and-drop functionality (similar to Linear).
- Stack: Svelte, JavaScript, Flask, PostgreSQL/SQLAlchemy, TailwindCSS, DaisyUI, PSPDFKit.

Projects

Windows 11 in Svelte 🔗 ⌗   2021 - 2022
- Recreated the Windows 11 desktop experience for the web using Svelte.
- Featured in:
    - JSNation Open Source Awards (nominated for 'Fun Side Project of the Year' 2023) 🔗
    - JavaScript Weekly 🔗
    - Hacker News 🔗 (Trending #1) 🔗
- Additionally, I was the lead front-end contributor ⌗ to Win11React 🔗, which garnered **7.8M views** in 2023 and contributed to a combined total of over **10K GitHub Stars** across these projects.

Prosper Mint 🔗 ⌗   2023 - 2024
- Developed a personal finance app for budgeting, expense tracking, and goal setting with a responsive interface and secure authentication.
- Stack: Svelte/Kit, JavaScript/TypeScript, Tailwind/Daisy, PostgreSQL/DrizzleORM, Lucia Auth.

Technologies

Languages: JavaScript/TypeScript, Python, HTML, CSS, SQL

Technologies: Svelte/Kit, React, MongoDB, PostgreSQL, Flask

Libraries: Prisma, DrizzleORM, GCP/Firebase, Stripe Connect, Auth.js, Lucia Auth, Langchain/GPT-3.5, TailwindCSS, DaisyUI, PSPDFKit

Education

Bennett University, Bachelor of Technology - B.Tech, Computer Science

Testimonials

Guillermo Rauch (CEO @Vercel | Creator @Next.js)
"Well played https://win11-svelte.vercel.app Also: modern web browsers are engineering marvels" 🔗

Rich Harris (Creator @Svelte)
"I love the 'build a pretend OS in svelte' trend - kudos @yashash_pugalia" 🔗

Julie Zhuo (Co-Founder @Sundial | Former VP Design @Facebook)
"Love your work! Especially your dedication to building with craft and creative exploration."

Will Yoo (Founder @Realm Labs AI | Product Manager @Misfits Market)
"I want to say you're one of the most talented young engineers I've met, you make some engineers and even founders I've worked with look like amateurs. I highly encourage you to take risks, learn from these mistakes I've made, and do big things with your life. I'm always here to support you. Let's win together."
